

## Press Release

### Code Dx Enterprise Wins Silver in the 2018 Golden Bridge Awards

**NORTHPORT, N.Y. – October 30, 2018 – Code Dx, Inc.**, provider of an award-winning application security solution that automates and accelerates the discovery, prioritization, and management of software vulnerabilities, today announced that **Code Dx Enterprise** has been honored as the Silver winner for the **Golden Bridge Awards** in the “Vulnerability Assessment and Remediation Innovations” category. Winners were honored in San Francisco on October 29, 2018 during the annual Red Carpet Golden Bridge Awards Ceremony.

“The Golden Bridge Awards recognize innovation in information technology and we are proud that Code Dx Enterprise has once again been honored for its ability to manage software vulnerability remediation,” said **Anita D’Amico, Ph.D.**, CEO of Code Dx. “Our team partners with our clients to truly understand their challenges and listens to market demands to stay ahead of trends, ensuring Code Dx Enterprise prevents malicious attacks on software applications.”

The Golden Bridge Awards are an annual industry and peers recognition program honoring best companies in every major industry from large to small and new start-ups in North America, Europe, Middle East, Africa, Asia Pacific, and Latin America, Best New Products and Services, Best Innovations, Management and Teams, Women in Business and the Professions, Case Studies, Customer Satisfaction, and PR and Marketing Campaigns from all over the world.

#### About Code Dx

Code Dx, Inc. is a provider of an award-winning application security solution that automates and accelerates the discovery, prioritization, and management of software vulnerabilities. The Code Dx Enterprise solution integrates the results of multiple static, dynamic, and interactive Application Security Testing (AST) tools, third-party component analyzers, threat modeling tools, and manual reviews into a consolidated set of results for quick and easy triage, prioritization, and remediation. The core technology was partially funded by Department of Homeland Security Science & Technology (DHS S&T) to help secure the nation’s software supply chain.
