Press Release

Code Dx Enterprise Recognized with Platinum
ASTORS Homeland Security Award

NORTHPORT, N.Y. – December 5, 2018 – **Code Dx, Inc.**, provider of an award-winning application security solution that automates and accelerates the discovery, prioritization, and management of software vulnerabilities, today announced that **Code Dx Enterprise** won a **Platinum *American Security Today* ASTORS Homeland Security Award**. Code Dx was awarded top honors in the "Best Cyber Code & Auditing Solution" category at the award presentation luncheon at the Javits Center in New York City on November 14. Code Dx was also a recipient of an ASTORS Award in 2017.

"Cybersecurity is a critical component of keeping our nation safe," said **Anita D'Amico, Ph.D.**, CEO of Code Dx. "Most cyber incidents can be traced back to flaws in software that are exploited by attackers. We continue to enhance our solutions to help software developers and security analysts leverage multiple AppSec tools and techniques to identify vulnerabilities throughout the entire software development lifecycle and ensure the security of their software applications. Just last week, we released our **latest version of Code Dx Enterprise** with a powerful new dashboard that provides the critical information AppSec professionals need all in one place and in a visually pleasing format that makes sense to them."

The Annual ASTORS Awards is the preeminent U.S. Homeland Security Awards Program highlighting the most cutting-edge and forward-thinking security solutions coming onto the market today, to ensure *American Security Today* readers have the information they need to stay ahead of the competition, and keep the nation safe—one facility, street, and city at a time. The ASTORS program is specifically designed to honor distinguished government and vendor solutions that deliver enhanced value, benefit, and intelligence to end users in a variety of government, homeland security, enterprise, and public safety vertical markets.

About Code Dx

Code Dx, Inc. is a provider of an award-winning application security solution that automates and accelerates the discovery, prioritization, and management of software vulnerabilities. The Code Dx Enterprise solution integrates the results of multiple static, dynamic, and interactive Application Security Testing (AST) tools, third-party component analyzers, threat modeling tools, and manual reviews into a consolidated set of results for quick and easy triage, prioritization, and remediation. The core

technology was partially funded by Department of Homeland Security Science & Technology (DHS S&T) to help secure the nation's software supply chain. For more information, please visit **www.codedx.com** or contact Code Dx at (631) 759-3993 or at **Info@CodeDx.com.**
